OVERDOSE PREVENTION PROGRAM

OVERDOSE IS THE LEADING INJURY-RELATED CAUSE OF DEATH IN THE U.S.

110,000

Nearly 110,000 people have died in the United States from drug overdose in the last year.

80,000+

More than 80,000 of those drug overdose deaths involved an opioid.

BYSTANDERS WERE PRESENT IN MORE THAN 1 IN 3 OPIOID OVERDOSES

Research shows that people who have had at least one overdose are more likely to have another.
